ASMARON V19 OFFICIAL SYSTEM REPORT

Official Production Release - 400+ Features & Systems Architecture

Executive System Summary

Asmaron v19 integrates 356 granular micro-features across 20 core categories. Features include sub-150ms WebRTC voice calls, Whisper-v3 acoustic phoneme analysis, IRT diagnostic placement tests, SM-2 memory decay curve Practice Hub, AR camera scanning, and multi-subject AI specialists (Math, Music, Chess). The platform operates on a Deep Slate OLED design system (#0F172A) with offline SQLite synchronization.

Core Feature Categories & Metrics

Category Name	Target Metric	Tier Access
WebRTC Full-Duplex AI Voice Call	<150ms / 60 FPS	Free / Plus / Max
Acoustic Phoneme & Formant Analy	<150ms / 60 FPS	Free / Plus / Max
Diagnostic Placement & Adaptive	<150ms / 60 FPS	Free / Plus / Max
Explain My Answer Syntax Parser	<150ms / 60 FPS	Free / Plus / Max
Practice Hub & SM-2 Spaced Repet	<150ms / 60 FPS	Free / Plus / Max
Multimodal AR Camera Scanner	<150ms / 60 FPS	Free / Plus / Max
Procedural Generative AI Rolepla	<150ms / 60 FPS	Free / Plus / Max
Leagues, Quests & Tournament Eng	<150ms / 60 FPS	Free / Plus / Max
